

Slotenlijst Vaartuigbeveiliging, April 2017

Voor de goedkeuring van producten voor mechanische beveiliging voor vaartuigen heeft VbV de eisen overgenomen zoals die gelden bij de bestaande certificeringsregelingen. Het betreft het huidige VbV/SCM keuringsvoorschrift voor mechanische beveiliging (MP03) en het voorschrift voor kettingen en sloten voor tweewielers van de Stichting ART. Voor wat betreft de kabels, kettingen en sloten worden 2 categorieën onderscheiden, licht en standaard. Voor de categorie licht (wegneembeveiliging) gelden de ART eisen voor 1 en 2 sterren. Voor de categorie standaard (diefstalbeveiliging) worden de ART eisen voor 3, 4 of 5 sterren gevolgd.

In onderstaand overzicht vindt u de producten die op dit moment onder bovengenoemde regelingen zijn goedgekeurd door VbV/SCM en de Stichting ART.
